

We are seeking an individual to fill a part-time, retail, sales position in our stall in the Boston Public Market in downtown Boston.

The position is for an 8 hour shift (10-6) every Sunday and Monday.

We are seeking a mature and dependable person that can be responsible for opening and closing, being on time, working independently, being a team player and representative of our company as well as the BPM. We are makers of handcrafted wooden bowls and cutting boards made from upcycled and locally sourced wood. This sales position requires a customer focus, presenting the product, relaying our story, aiding the customer in identifying and selecting their purchase. Also required is proficiency operating a desktop POS system. An individual with a friendly, positive and outgoing personality will find the same within the Market environment and is a must for the success and enjoyment of the position.

The compensation is an hourly wage paid weekly. Additional shifts of 4-6 hours may occasionally be required/available
